

ALASKA CONCRETE SOLUTIONS

BIG OR SMALL WE PUMP THEM ALL

ALASKA'S LARGEST & MOST CAPABLE FLEET

We know our trucks inside and out, and are proud to own and operate a fleet of modern Schwing, Liebherr & Putzmeister equipment. With 6 boom pumps, 2 line pumps & 2 conveyors, our fleet has the backup capacity to serve on standby when needed. In addition, we offer Alaska's ONLY detachable pump unit for multi-story buildings, the ONLY telescopic conveyor trucks in the state, and the 3 largest boom trucks in Alaska.

ACPA-CERTIFIED TEAM

With a pristine record for service & site safety, our full-time team of ACPA-certified pump operators receives regular training and remains accident & injury-free.

EXPERIENCE THE BEST

Over 40 years of combined pumping experience between our 4 primary operators.

48-HOUR GUARANTEED SERVICE

We offer guaranteed service with 48-hour lead time.

2 YARD LOCATIONS

Yard locations in Palmer & Anchorage offer full-scale services capable of all types & sizes of projects. With a full array of fleet options, as well as service available throughout Alaska, we pump where others can't.

OUR FLEET

**47M-RZ
PUTZMEISTER**

5-SECTION ROLL/Z-BOOM

138' Horizontal Reach | 151' Vertical Reach | Up to 210 cu yds/hr

Our largest boom offers a space-minimizing footprint & agile design for all-around versatility.

**41M-RZ
LIEBHERR**

5-SECTION ROLL/Z-BOOM

120' Horizontal Reach | 133' Vertical Reach | Up to 213 cu yds/hr

With tight articulation capability in a large-boom size, this unit offers full pump deployment in tight set-up areas.

**42M
SCHWING**

4-SECTION ROLL & FOLD BOOM

125' Horizontal Reach | 138' Vertical Reach | Up to 182 cu yds/hr

Agile & capable of multi-story placements, this is the 2nd largest boom in Alaska and offers great stability in all boom positions.

**39M-SX DETACH
SCHWING**

DETACHABLE ROLL & FOLD BOOM

113' Horizontal Reach | 127'+ Vertical Reach | Up to 213 cu yds/hr

Combines maneuverability of a smaller unit with limitless extended boom capability for the ultimate vertical construction concrete solutions. Pressure capabilities allow up to 200-250' of vertical pumping.

**37M-Z
LIEBHERR XXT**

4-SECTION Z-BOOM

108' Horizontal Reach | 121' Vertical Reach | Up to 213 cu yds/hr

A versatile "all-rounder" with an innovative outrigger system that's easily deployable in a tight footprint.

**36M
PUTZMEISTER**

4-SECTION ROLL & FOLD BOOM

105' Horizontal Reach | 117' Vertical Reach | Up to 210 cu yds/hr

Compact outrigger spread allows for tight maneuverability + quick & easy set up. Its light weight & short length make it convenient for longer road travel.

**LB-33 SCHWING
LOOP BELT
CONVEYOR**

HIGH CAPACITY MULTI-USE BELT CONVEYOR

107' Horizontal Reach | 61' Vertical Reach | Up to 320-504 cu yds/hr

Move more material, faster. The loop belt conveyor outmaneuvers & outperforms other placements of both concrete & backfill of up to 6" aggregate. Excellent for high-capacity & difficult-to-place applications where precision, speed & cost-savings are a priority.

**750-15X & 1000X
SCHWING
LINE PUMPS**

TRAILERED LINE PUMPS

**1160' Horizontal Reach | 330' Vertical Reach
Up to 50 cu yds/hr (750-15X) & 70 cu yds/hr (1000X)**

Compact & easily towed, our line pumps are nimble and equipped with 2" to 4" hose capacity and 250'-700' of line.

OUR STRENGTH IS CONCRETE

Trust that our experience & expertise is as strong as concrete itself. We are #CONCRETESTRONG
